## HOW SENZ MULTIHOOOD ENHANCES THE JOY OF COOKING

### EASY TO CLEAN

- Tempered glass surface makes cleaning easier compared to conventional stainless steel surface
- Practically maintenance-free\* metal filter replaces conventional aluminum filter

### STRONG SUCTION POWER

- Superb suction power of up to 1600m<sup>3</sup>/h\*
- Power boost extracts more grease and fumes - leaving less to clean up
- Twin motor design\* greatly increases suction efficiency
- Angled design allows hood to be installed closer to the hob, thus optimizing suction strength

### ELEGANT DESIGN

- Sleek and modern design complete with black tempered glass creates a stylish ambience to your kitchen
- Angled design prevents accidentally bumping your head against the cooker while cooking

### intelClean™\*\*

- SENZ MultiHood is equipped with intelligent cleaning technology that uses a 9-minute 110°C \*\* heat pump turn evaporated hot steam and spray cleaning system to effectively remove stubborn grease, especially in nooks and crannies. With a press of a button, your SENZ MultiHood automatically cleans itself thoroughly, prolonging its functionality and lifespan.

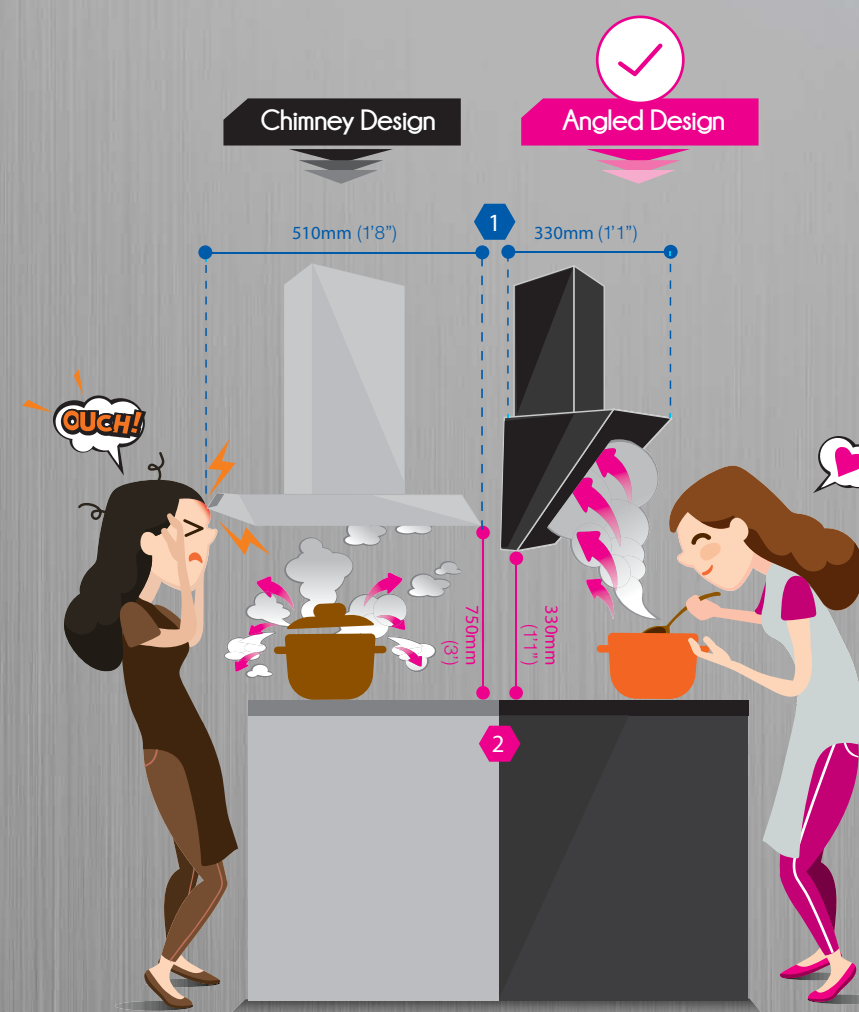

\* Available in selective models only

\*\* Available in SZ-CH338i MultiHood only

## Why Choose SENZ Angled Design multiHood?

SENZ Angled Design MultiHood

Here's why:

- 1 The height of the installation for the SENZ Angled Design MultiHood is only 300mm! Its angled design significantly **reduces the possibility of head collisions with the cooker hood** as its depth is only around 330mm!
- 2 The suction process will be much **more effective** as the distance between the cooker hood and the stove is only 300mm, allowing harmful substances produced by cooking fumes to be eliminated faster.

- ① Water holder fill in with clean water
- ② High-pressure Suction  
Water is obtained through high pressure suction and stored in the tank
- ③ 110° C Heat Pump\*  
Stored water is heated through heat pump into evaporated hot steam
- ④ 9-minute Heat & Spray Cleaning\*  
Spinning motor fan generates centrifugal force to remove stubborn grease
- ⑤ Elimination of Grease  
Extracted grease is channelled to oil cup
- ⑥ 3-minute High-speed Drying  
Eliminates excess water, ensuring a longer-lasting cooker hood

## intelClean™

Clean Smart For Thorough Cleaning

SENZ MultiHood is equipped with intelligent cleaning technology that uses a 9-minute 110°C\* heat pump turn evaporated hot steam and spray cleaning system to effectively remove stubborn grease, especially in nooks and crannies. With a press of a button, your SENZ MultiHood automatically cleans itself thoroughly, prolonging its functionality and lifespan.

## SENZ PHILOSOPHY

With the advancement of today's modern society, people are looking towards higher and better standard of living even more so than before. Besides assurance of quality, they are pursuing for innovations that can enhance and facilitate the ideal of modern living. As such, the vision of SENZ Malaysia – the electric and induction cookers expert, has always been to enable people to have a quality and modern lifestyle. While the electric and induction cookers are commonly perceived as just a safer way to cook, we decided to change that through our advanced SENZ Energy Saving MultiCooker and MultiHood series. Modern design complemented by state-of-the-art technology for the best of both worlds you can enjoy right in your own kitchen. Besides top quality assurance that comes standard with SENZ products, you will certainly appreciate the professional and prompt after-sales service that goes with it!
