

- ① Water holder fill in with clean water
- ② High-pressure Suction
Water is obtained through high pressure suction and stored in the tank
- ③ 110° C Heat Pump*
Stored water is heated through heat pump into evaporated hot steam
- ④ 9-minute Heat & Spray Cleaning*
Spinning motor fan generates centrifugal force to remove stubborn grease
- ⑤ Elimination of Grease
Extracted grease is channelled to oil cup
- ⑥ 3-minute High-speed Drying
Eliminates excess water, ensuring a longer-lasting cooker hood

SENZ SZ-CH338i intelClean™ Twin Turbo Motor MultiHood

intelClean™

Clean Smart For Thorough Cleaning

SENZ MultiHood is equipped with intelligent cleaning technology that uses a 9-minute 110°C* heat pump turn evaporated hot steam and spray cleaning system to effectively remove stubborn grease, especially in nooks and crannies. With a press of a button, your SENZ MultiHood automatically cleans itself thoroughly, prolonging its functionality and lifespan.
