- Safety valve
- Gas type: LPG
- Gas Pressure: 2800 kPa

Product Dimensions:

WARNING: The stipulated gas cooker pressure is 2800 kPa. Used of gas regulator that will adjust the gas pressure that exceed our stipulated gas pressure, may result in shooting flame that is very dangerous and may cause unwanted accident. Product warranty will be null & void should we discover the usage of this type of gas regulator.

Remarks: Both ignition pins will light up when either knob is pressed, but gas supply for each burner is separated so flame will only be ignited on the burner that has been turned on. Installation fees is NOT included for all the price stated above & price is subject to change without prior notice

HOW SENZ MULTIHOOD ENHANCES THE JOY OF COOKING

EASY TO CLEAN

- Tempered glass surface makes cleaning easier compared to conventional stainless steel surface
- Practically maintenance-free* metal filter replaces conventional aluminum filter

STRONG SUCTION POWER

- Superb suction power of up to 1600m³/h*
- Power boost extracts more grease and fumes - leaving less to clean up
- Twin motor design* greatly increases suction efficiency
- Angled design allows hood to be installed closer to the hob, thus optimizing suction strength

ELEGANT DESIGN

- Sleek and modern design complete with black tempered glass creates a stylish ambience to your kitchen
- Angled design prevents accidentally bumping your head against the cooker while cooking

intelCleAn™*

- SENZ MultiHood is equipped with intelligent cleaning technology that uses a 9-minute 110°C ** heat pump turn evaporated hot steam and spray cleaning system to effectively remove stubborn grease, especially in nooks and crannies. With a press of a button, your SENZ MultiHood automatically cleans itself thoroughly, prolonging its functionality and lifespan.

* Available in selective models only

** Available in SZ-CH338i MultiHood only

Why Choose SENZ Angled Design multiHood?

SENZ Angled Design MultiHood

Here's why:

- 1 The height of the installation for the SENZ Angled Design MultiHood is only 300mm! Its angled design significantly **reduces the possibility of head collisions with the cooker hood** as its depth is only around 330mm!
- 2 The suction process will be much **more effective** as the distance between the cooker hood and the stove is only 300mm, allowing harmful substances produced by cooking fumes to be eliminated faster.

- ① Water holder fill in with clean water
- ② High-pressure Suction Water is obtained through high pressure suction and stored in the tank
- ③ 110° C Heat Pump* Stored water is heated through heat pump into evaporated hot steam
- ④ 9-minute Heat & Spray Cleaning* Spinning motor fan generates centrifugal force to remove stubborn grease
- ⑤ Elimination of Grease Extracted grease is channelled to oil cup
- ⑥ 3-minute High-speed Drying Eliminates excess water, ensuring a longer-lasting cooker hood

intelClean™

Clean Smart For Thorough Cleaning

SENZ MultiHood is equipped with intelligent cleaning technology that uses a 9-minute 110°C* heat pump turn evaporated hot steam and spray cleaning system to effectively remove stubborn grease, especially in nooks and crannies. With a press of a button, your SENZ MultiHood automatically cleans itself thoroughly, prolonging its functionality and lifespan.

SENZ Philosophy

The world changes at a rapid pace and SENZ embraces change. Performance, quality, and functionality – these are the attributes SENZ constantly improves for the better. The only thing that doesn't change is the vision of SENZ, which is to provide quality products to facilitate the modern lifestyle everyone desires.

From intelligent cleaning cooker hoods, powerful triple ring burner gas hobs, to energy saving MultiCookers – SENZ has got it all. Modernly designed and equipped with state-of-the-art technology, SENZ products will surely satisfy all your kitchen needs and cooking desires. Every SENZ product is quality assured and comes with professional, prompt after-sales service to better ensure you have the best SENZ experience.
